

**Title:** Learning to Teach Czech

**Author:** Dana Hůlková-Nývtová, Charles University, Prague

ILPS (Institute of Language and Preparatory Studies) is an institution with a long tradition of teaching Czech as a foreign/second language. We also aim at teachers' continuing education in foreign/second language methodology. Our courses are aimed at Czech teachers working in the Czech Republic and its environs (Germany, Austria), as well as teachers and instructors working all over the world with Czech compatriots. In 2008 we initiated methodology symposia for teachers and instructors who teach Czech as a foreign/second language outside the Czech Republic. These symposia will be the topic of this poster.
